C. JUDSON KING has been with the University of California for 55 years and counting. Along with a faculty career in chemical engineering, he has served in administrative posts throughout the university that have given him a full perspective of the university. For the Berkeley campus he was successively Department Chair, Dean of the College of Chemistry, and Provost – Professional Schools and Colleges. He was then Vice Provost for Research for a year and Provost and Senior Vice President – Academic Affairs for nearly a decade with the university-wide administration. Returning to the Berkeley campus, he directed their Center for Studies in Higher Education for another decade.
